Each year, the association's volunteer Board of Directors performs a very careful review of the past year's expenses and income to best project the amount to collect from each member in the upcoming fiscal year. When reviewing the budget, the Board considers several factors such as; recurring contract costs, inflation, utility usage and rates, insurance, and appropriate reserve contributions (savings) each month to pay for repair, restoration and/or replacement of common area components as needed.

As a result of this year's budget review, the Board has determined that an increase of 4.3% is needed to responsibly meet the association's financial needs in the upcoming fiscal year. **Please note that effective June 1, 2026, your new Master Association assessment will be \$241.00 per month.**

The primary contributing factors for this year's assessment increase include:

- Insurance – The Master insurance policy increased by almost 200% from FY 2025 to FY 2026 due to an increased number of open claims/litigation against LARMAC. As a result, the budget has been increased in FY 2027 to \$621,840.
- Water – Santa Margarita Water District (SMWD) adopted a new rate structure in mid-2025 that includes annual rate increases through 2029. The most recent increase took effect on March 1, 2026 and the next increase is planned for March 1, 2027. A 10% increase is anticipated based on similar usage. With over 800 acres of irrigated landscape and multiple pools and facilities, this puts LARMAC's annual water budget for the master association at about \$1.5M.
- Reserve Expenses - This is LARMAC's "savings" account used to repair, replace, and improve community assets as detailed in the Reserve Study. Recent examples of projects funded by reserves include:
 - Terramor Water Park – Water structure replacement and other improvements
 - Plunge Pools – Restrooms and shower renovations
 - Oak Knoll Village Club – Deck and stairs replacement
 - Heritage Farm – Updating the facility from a garden to a community farm
 - Covenant Hills Tennis Courts – Court resurfacing, chain-link replacement, furnishings powder coating, painting and windscreen and net replacement
 - Multiple Painting Projects Across Facilities – Terramor Paseo, Oso Grande Park, Avendale Village Club and the Oak Knoll Paseo

- Landscape Refurbishment/Enhancement Projects
 - Cox Sports Park Field 4 Artificial Turf Project
 - Acacia Removal & Replacement – Multiple Locations
- Contract Increases – Contract increases, primarily ranging in the 2-4% range for contracts such as patrol service, landscape and staffing. Also, additional funds have been budgeted for common area expenses and insurance in anticipation of continued rising costs.

About the Reserve Study

California law requires the association's Board of Directors to “cause to be conducted” a reserve study with an onsite inspection at least once every three years. Although the law does not require the Board to perform a reserve study in years two and three, the law does require an annual disclosure to be distributed to the membership in those years. To ensure that the association’s major components are appropriately identified, the Board hires a professional reserve analyst for these services.* The “Executive Summary” in this packet will show whether or not a site inspection was completed this year as determined by the Board.

California law also requires the Board to make these disclosures about the association’s reserve funds:

- 1) In the upcoming year, the association will fund reserves using the following sources:

	<i>Type of Funding</i>
--	-------------------------------

<input checked="" type="checkbox"/>	Regular Assessments
<input type="checkbox"/>	Special Assessments
<input type="checkbox"/>	Borrowing
<input type="checkbox"/>	Use of Other Assets
<input type="checkbox"/>	Deferral of Repairs
<input type="checkbox"/>	Alternate Mechanisms

- 2) **The association has a total of \$10,083,084 in actual accumulated reserve funds as of January 31, 2026. The Board anticipates that the amount will decrease to \$9,765,324 by the end of the current fiscal year. According to the reserve analyst, the total replacement cost for all major components is \$30,464,970. The current reserve fund amount represents 32.1% of the projected total replacement cost.** Although this number usually seems low, the legislature requires the Board to disclose (in boldface type) how much it would cost the association to rebuild all of its major common area components if they were replaced all at once.
- 3) According to the reserve analyst, at the start of the upcoming fiscal year the association is anticipated to be 59% funded to the “ideal funding level”. That number represents the amount the association is anticipated to have on hand to repair or replace major components when they are scheduled to be repaired or replaced.
- 4) The Board of Directors has determined to defer or not undertake repairs or replacement of the following major components with a remaining life of 30 years or less (as identified in the reserve study as having zero estimated remaining life):

* The association's board of directors has relied on information, opinions, reports and statements presented to it by vendors, contractors, reserve study specialists, CPAs and/or other professionals and is relying upon this information, financial data and reports pursuant to the California Corporations Code in providing the association membership with the information contained in this Assessment Reserve Funding Disclosure Summary. The information contained within the reserve study includes assumptions regarding future events based on information supplied to the association's board of directors from said professionals. Some assumptions inevitably will not materialize and unanticipated events and circumstances may occur subsequent to the date of this Disclosure Summary. Therefore, the actual replacement cost and remaining life may vary from the reserve study and the variation may be significant. Additionally, inflation and other economic events may impact the reserve study, particularly over a 30-year period of time which could impact the accuracy of the reserve study and the funds available to meet the association's obligation for repair and/or replacement of major components during the next 30 years. Furthermore, severe weather conditions, earthquakes, floods or other acts of God, the occurrence of vandalism and other events that are difficult to anticipate cannot be accounted for and are excluded when assessing life expectancy of the components. 7. Based on the method of calculation in paragraph (4) of subdivision (b) of Section 5570 of the Civil Code, the estimated amount required in the reserve fund at the end of each of the next 5 budget years found in column E, and the projected reserve fund cash balance in each of those years, taking into account only assessments already approved and other known revenues, found in column D, leaving the reserve at percent funding found in column F. Please see the projected five-year funding plan below that has been implemented and approved by the association.

Note: The financial representations set forth in this summary are based on the best estimates of the preparer at that time. The estimates are subject to change. At the time this summary was prepared, the assumed long-term interest rate earned on reserve funds was 3.50% per year, and the assumed long-term inflation rate to be applied to major component repair and replacement costs was 3.00% per year.

(b) For the purposes of preparing a summary pursuant to this section:

- (1) "Estimated remaining useful life" means the time reasonably calculated to remain before a major component will require replacement.
- (2) "Major component" has the meaning used in Section 5550. Components with an estimated remaining useful life of more than 30 years may be included in a study as a capital asset or disregarded from the reserve calculation, so long as the decision is revealed in the reserve study report and reported in the Assessment and Reserve Funding Disclosure Summary.
- (3) The form set out in subdivision (a) shall accompany each annual budget report or summary thereof that is delivered pursuant to Section 5300. The form may be supplemented or modified to clarify the information delivered, so long as the minimum information set out in subdivision (a) is provided.
- (4) For the purpose of the report and summary, the amount of reserves needed to be accumulated for a component at a given time shall be computed as the current cost of replacement or repair multiplied by the number of years the component has been in service divided by the useful life of the component. This shall not be construed to require the board to fund reserves in accordance with this calculation.

The preparer of this form will be indemnified and held harmless against all losses, claims, actions, damages, expenses or liabilities, including reasonable attorneys' fees, to which we may become subject in connection with this engagement, because of any false, misleading or incomplete information which has been relied upon by others, or which may result from any improper use or reliance on the disclosure by you or a third party.

Therefore, the final decisions for implementation, updating or revising the information obtained in this report, for any changes in assumptions, is the sole right and responsibility of the Board of Directors. This report and the numbers generated herein are for use only for the year it was developed. DELINQUENT ASSESSMENT COLLECTION POLICY

Effective: JUNE 2026

Prompt payment of assessments by all owners is critical to the financial health of the Association and to the enhancement of the property values of our Association. Your Board of Directors takes very seriously its obligation under the CC&R's and the California Civil Code to enforce the members' obligation to pay assessments. The Board has adopted this Collection Policy in an effort to discharge that obligation in a fair, consistent, and effective manner. Therefore, pursuant to the CC&R's and Civil Code, the following are the Association's assessment collection practices and policies:

- Regular monthly assessments are due and payable on the 1st day of each month. A courtesy billing statement is sent each month to the billing address on record with the Association. However, it is the owner of record's responsibility to pay each assessment in full each month regardless of whether a statement is received.
- For purposes of this Collections Policy, 'assessments' shall include all charges levied by the Association against an Owner pursuant to the CC&Rs, including but not limited to regular assessments, special assessments, compliance assessments, reimbursement assessments, reconstruction assessments, capital improvement assessments, and utility charges billed directly by the Association (e.g., cable, internet, or similar services). All such charges shall be subject to the Association's delinquency policy, including accrual of late fees, interest, and collection actions as permitted by law.
- Regular monthly assessments and all other assessments (as defined in Paragraph 2) are collectively referred to herein as "Assessments".
- Assessments, late charges, interest and collection costs, including any attorneys' fees, are the personal obligation of the owner of the property at the time the Assessment or other sums are levied.
- Unpaid Assessments are delinquent 15 days after they are due.
- A late charge of \$10.00 or 10%, whichever is greater, will be charged for any Assessment that is not received on or before the 15th day of the month, prior to the close of business.
- Interest on the balance due will accrue at a rate not to exceed 12% per annum; commencing thirty (30) days after the Assessment becomes due.
- At fifteen (15) days past due, the association may invite owner(s) to a hearing for the purpose of revoking membership privileges. Those privileges can include access to common areas or facilities, and/or services paid for by the association.
- When an Assessment becomes more than forty-five (45) days past due, the Association will send a validation notice to the billing address on record with the association. The owner will be charged a fee for the notice, as well as all costs to complete the transmittal of the notice. If an owner writes to dispute the amount owed or to request "original creditor" information within the validation period set forth in the notice, then the Association will cease collection of the debt, or any disputed portion of the debt, until the Association responds appropriately as required by law (see applicable consumer protection laws).
- When an Assessment becomes more than eighty (80) days past due, the Association will send an intent to lien/pre-lien letter to each owner, as required by the Civil Code, by

LADERA RANCH MAINT CORP (LARMAC)

certified mail to the owner's address of record. The owner will be charged a fee for the notice, as well as all costs to complete the transmittal of the letters

- If the owner fails to pay the amounts set forth in the intent to lien/pre-lien letter within 30 days of receipt of that letter, a lien for the amount of any delinquent Assessments, late charges, interest and/or costs of collection, including attorneys' fees, may be recorded against the owner's property. The owner will be charged a fee for the lien, as well as any processing fees, recording service, and costs. A copy of the lien will be sent to each owner at his/her address of record via certified mail within ten (10) days of recordation thereof. After the expiration of thirty (30) days following recordation of the lien, the lien may be enforced in any manner permitted by law.
 - Prior to the recording of a Board authorized lien for delinquent Assessments, an owner that is delinquent has the right to participate in internal dispute resolution ("IDR") pursuant to the "meet and confer" program in accordance with California Civil Code. Prior to recording a lien, the Board of Directors will approve such action by a majority vote of the Board of Directors.
 - Upon receipt of payment in full, that includes any late fees, interest, collection costs and/or attorneys' fees, a Release of Lien will be recorded. Copies of the Release of Lien will be sent to all owners of record. The owner will be charged a fee for the release, as well as any processing fees, recording service, and costs. All county recording fees are charged as applicable and as counties may charge from time to time.
- If an owner is delinquent for thirty (30) additional days after the Notice of Delinquent Assessment (Lien) has been recorded, the Assessment collection matter will be referred to the Association's attorney or collection agent, and the lien may be enforced by judicial or non-judicial foreclosure sale, or by money judgment at the Association's option. An actual foreclosure sale of an owner's property will not be conducted unless or until either; (a) the delinquent assessment amount totals One Thousand, Eight Hundred Dollars (\$1,800) or more, excluding accelerated assessments and specified late charges and/or fees; or (b) the assessments are delinquent for more than twelve (12) months. [You could lose ownership of your property if a foreclosure action is completed. You will be responsible for significant additional fees and costs, including attorneys' fees, if a foreclosure action is commenced against your property.] The decision to foreclose on a lien must be made by a majority of the Board of Directors in an Executive Session meeting and the Board of Directors must record their votes in the Minutes of the next open session Meeting of the Board. The Board must maintain the confidentiality of the delinquent owner(s) by identifying the matter in the Minutes by only the parcel number of the owner's property. Prior to initiating any foreclosure sale on a recorded lien, the Association shall offer delinquent owners the option of participating in IDR or Alternative Dispute Resolution ("ADR").
- Nothing herein limits or otherwise affects the Association's right to proceed in any other lawful manner to collect any delinquent sums owed to the Association.
- The Association will charge a processing fee to the owner for a returned check.
- Any owner who is unable to pay Assessments will be entitled to submit a written request for a payment plan to be considered by the Board of Directors. The Board of Directors is not required to approve a payment plan. If a payment plan is approved, the Board of Directors may establish the terms of the payment plan. A payment plan request or approved payment plan will not impede the Board's ability to vote for and record a lien.

NOTICE ASSESSMENTS AND FORECLOSURE

This notice outlines some of the rights and responsibilities of owners of property in common interest developments and the associations that manage them. Please refer to the sections of the Civil Code indicated for further information. A portion of the information in this notice applies only to liens recorded on or after January 1, 2003. You may wish to consult a lawyer if you dispute an assessment.

ASSESSMENTS AND FORECLOSURE

Assessments become delinquent 15 days after they are due, unless the governing documents provide for a longer time. The failure to pay association assessments may result in the loss of an owner's property through foreclosure. Foreclosure may occur either as a result of a court action, known as judicial foreclosure, or without court action, often referred to as nonjudicial foreclosure. For liens recorded on and after January 1, 2006, an association may not use judicial or nonjudicial foreclosure to enforce that lien if the amount of the delinquent assessments or dues, exclusive of any accelerated assessments, late charges, fees, attorney's fees, interest, and costs of collection, is less than one thousand eight hundred dollars (\$1,800). For delinquent assessments or dues in excess of one thousand eight hundred dollars (\$1,800) or more than 12 months delinquent, an association may use judicial or nonjudicial foreclosure subject to the conditions set forth in Article 3 (commencing with Section 5700) of Chapter 8 of Part 5 of Division 4 of the Civil Code. When using judicial or nonjudicial foreclosure, the association records a lien on the owner's property. The owner's property may be sold to satisfy the lien if the amounts secured by the lien are not paid. (Sections 5700 through 5720 of the Civil Code, inclusive)

In a judicial or nonjudicial foreclosure, the association may recover assessments, reasonable costs of collection, reasonable attorney's fees, late charges, and interest. The association may not use nonjudicial foreclosure to collect fines or penalties, except for costs to repair common area damaged by a member or a member's guests, if the governing documents provide for this. (Section 5725 of the Civil Code)

The association must comply with the requirements of Article 2 (commencing with Section 5650) of Chapter 8 of Part 5 of Division 4 of the Civil Code when collecting delinquent assessments. If the association fails to follow these requirements, it may not record a lien on the owner's property until it has satisfied those requirements. Any additional costs that result from satisfying the requirements are the responsibility of the association. (Section 5675 of the Civil Code)

At least 30 days prior to recording a lien on an owner's separate interest, the association must provide the owner of record with certain documents by certified mail, including a description of its collection and lien enforcement procedures and the method of calculating the amount. It must also provide an itemized statement of the charges owed by the owner. An owner has a right to review the association's records to verify the debt. (Section 5660 of the Civil Code)

LADERA RANCH MAINT CORP (LARMAC)

If a lien is recorded against an owner's property in error, the person who recorded the lien is required to record a lien release within 21 days, and to provide an owner certain documents in this regard. (Section 5685 of the Civil Code)

The collection practices of the association may be governed by state and federal laws regarding fair debt collection. Penalties can be imposed for debt collection practices that violate these laws.

PAYMENTS

When an owner makes a payment, the owner may request a receipt, and the association is required to provide it. On the receipt, the association must indicate the date of payment and the person who received it. The association must inform owners of a mailing address for overnight payments. (Section 5655 of the Civil Code)

An owner may, but is not obligated to, pay under protest any disputed charge or sum levied by the association, including, but not limited to, an assessment, fine, penalty, late fee, collection cost, or monetary penalty imposed as a disciplinary measure, and by so doing, specifically reserve the right to contest the disputed charge or sum in court or otherwise.

An owner may dispute an assessment debt by submitting a written request for dispute resolution to the association as set forth in Article 2 (commencing with Section 5900) of Chapter 10 of Part 5 of Division 4 of the Civil Code. In addition, an association may not initiate a foreclosure without participating in alternative dispute resolution with a neutral third party as set forth in Article 3 (commencing with Section 5925) of Chapter 10 of Part 5 of Division 4 of the Civil Code, if so requested by the owner. Binding arbitration shall not be available if the association intends to initiate a judicial foreclosure.

An owner is not liable for charges, interest, and costs of collection, if it is established that the assessment was paid properly on time. (Section 5685 of the Civil Code)

MEETINGS AND PAYMENT PLANS

An owner of a separate interest that is not a time-share interest may request the association to consider a payment plan to satisfy a delinquent assessment. The association must inform owners of the standards for payment plans, if any exists. (Section 5665 of the Civil Code)

The board must meet with an owner who makes a proper written request for a meeting to discuss a payment plan when the owner has received a notice of a delinquent assessment. These payment plans must conform to the payment plan standards of the association, if they exist. (Section 5665 of the Civil Code).

ASSIGNMENT OF RENTS

In the event that the Association files any action against an Owner for unpaid Assessments on Owner's Unit, and said Unit is or becomes rented or leased at any time during the pendency of the action, the Association shall have the right, upon ex parte notice and application, to request that the Court order Owner to assign all rents due from the renter/lessor of said Unit to the Association until such time as all Assessment delinquencies are cured.

(c) This section does not apply to a small claims action.

(d) Except as otherwise provided by law, this section does not apply to an assessment dispute.

5935. (a) Any party to a dispute may initiate the process required by serving on all other parties to the dispute a Request for Resolution. The Request for Resolution shall include all of the following:

 - (2) One of the other parties to the dispute did not accept the terms offered for alternative dispute resolution.
 - (3) Preliminary or temporary injunctive relief is necessary.

5955. (a) After an enforcement action is commenced, on written stipulation of the parties, the matter may be referred to alternative dispute resolution. The referred action is stayed. During the stay, the action is not subject to the rules implementing subdivision (c) of Section 68603 of the Government Code.

(5) A resolution of the dispute agreed to by the parties shall be memorialized in writing and signed by the parties, including the board designee on behalf of the association.

- BBQ
- Fireplace
- Fire Pit
- Pet Enclosures
- Patio Covers/Arbors/Trellises

LANDSCAPE INSTALLATION GUIDELINES

1. Prior to any installation, you should have an agricultural suitability test performed on your yard’s soil. This can be obtained at most nurseries and will give you basic guidelines on how to amend your soil to ensure successful growing conditions for your plants.

2. Prior to installing any walks, walls, etc., chalk or paint out the design to get a feel as to how it works in your yard. You should ask yourself the following questions:
 - Is the width of my proposed walks appropriate for their intended use?
 - Is the amount of hardscape planned in scale with the overall size of my yard?
 - Are any architectural features (such as a low pilaster with a light) in scale with the overall design?
 - Are the colors and/or materials that I have selected for my hardscape elements compatible with my home’s color palette?

3. You should perform a weed abatement program prior to planting any of your plants. This can be performed as follows:

- Blend all soil amendments into your soil based on the recommendations of your soils report.
 - Water your yard for ten (10) days to stimulate weed growth.
 - After ten (10) days, spray your yard with a general weed killer per the manufacturer's recommendations.
4. Because of the nature of soils in south Orange County, when pouring concrete, you should install steel reinforcement in your slabs. You should also provide score lines and/or expansion joints in any concrete to reduce cracking.
 5. In areas where positive drainage to the street will be interrupted by hardscape or planting, drainage devices, and pipe should be installed, and an outlet provided to the street through a curb core.
 6. A permanent irrigation automated system must be installed.
 7. Grade or rake out your yard to ensure positive drainage to the street or drainage devices.
 8. Prior to installation, layout your plant material while they are still in the containers to get a feel for the spacing and overall look. Recommended spacing for shrubs is 75% of their ultimate growth width.
 9. Installing a mow strip will help in keeping a clean edge along your lawn areas. Concrete is the most durable. Wood, masonry or plastic products are easy to install. In all cases, these should be installed so that no more than 1" is exposed above the topsoil level.
 10. Lawn areas should not be planted on a slope any steeper than 20% (5:1). This will allow for ease in mowing and minimize irrigation run-off.
 11. Lawn areas can be planted in four (4) different ways for the style of your home:
 - Sod – easy and most successful way to install.
 - Hand seed – can be done by the homeowner but often requires multiple applications due to run-off, lack of water, or birds eating seeds.

- Hydro-seeding – must be applied by a contractor and sometimes requires multiple applications.
 - Artificial turf when installed in accordance with the Aesthetic Standards (See Section V, B, 2)
12. When installing trees, shrubs, vines or espaliers, the diameter of the hole you dig should be twice that of the container it comes in. After setting it in the hole, backfill should consist of a combination of your existing soil blended with the amendments that were recommended in the soils test results you should obtain. A water basin consisting of a compacted mound of soil following the shape of the planting pit should be constructed around each plant, and then removed once the plant is established.
 13. If you are planting any trees that may potentially create root problems for your hardscape, you should install a linear root barrier to help provide protection. This should be installed along the edge of your hardscape as per the manufacturer's recommendations.
 14. Small, single-trunk trees should be staked to protect them from possible damage. One or two stakes with two or more tree ties will help provide this protection. Ties may need adjustment over time, and stakes should eventually be removed.
 15. Vine and/or espaliers should be removed from their nursery stakes or trellises and attached to the adjacent surface with plastic epoxy ties, wire or through some other means of attachment.
 16. Ground cover should be installed at a spacing that will ensure full coverage when plants mature. Shredded mulch beneath and around shrubs and ground cover helps retain the moisture in the soil and impedes weed growth.
 17. After planting, apply water in sufficient quantities and as often as seasonal conditions require to keep the ground wet at all times, well below the root system of grass and plantings.

18. Thirty (30) days after installation, all landscape areas should be fertilized with a general fertilizer such as 16-6-8 at the rate recommended by the manufacturer.

19. Drought-tolerant landscape designs are responsive to the climate and are encouraged by water providers to reduce water use and associated costs. LARMAC also encourages the responsible use of water in landscape designs. The architectural styles of some homes are more compatible with drought-tolerant plant materials, including natural grasses and succulents. The use of plant material that requires less water should be designed so that it is harmonious with the style of the house in areas that are visible from the street and/or common areas.

Caution: Fertilizers with iron will stain your concrete when water is applied. Make sure that you sweep off all fertilizer prior to watering.

ALTERNATIVE DISPUTE RESOLUTION

5925. As used in this article: (a) "Alternative dispute resolution" means mediation, arbitration, conciliation, or other non-judicial procedure that involves a neutral party in the decision-making process. The form of alternative dispute resolution chosen pursuant to this article may be binding or nonbinding, with the voluntary consent of the parties.

(b) "Enforcement action" means a civil action or proceeding, other than a cross-complaint, for any of the following purposes:

(1) Enforcement of this title.

(2) Enforcement of the Nonprofit Mutual Benefit Corporation Law (Part 3 commencing with Section 7110) of Division 2 of Title 1 of the Corporations Code).

(3) Enforcement of the governing documents of a common interest development.

5930. (a) An association or an owner or a member of a common interest development may not file an enforcement action in the superior court unless the parties have endeavored to submit their dispute to alternative dispute resolution pursuant to this article.

(b) This section applies only to an enforcement action that is solely for declaratory, injunctive, or writ relief, or for that relief in conjunction with a claim for monetary damages not in excess of the jurisdictional limits stated in the Code of Civil.

(c) This section does not apply to a small claims action.

(d) Except as otherwise provided by law, this section does not apply to an assessment dispute.

(c) A party on whom a Request for Resolution is served has 30 days following service to accept or reject the request. If a party does not accept the request within that period, the request is deemed rejected by the party.

5940. (a) If the party on whom a Request for Resolution is served accepts the request, the parties shall complete the alternative dispute resolution within 90 days after the party initiating the request receives the acceptance, unless this period is extended by written stipulation signed by both parties.

(b) Chapter 2 (commencing with Section 1115) of Division 9 of the Evidence Code applies to any form of alternative dispute resolution initiated by a Request for Resolution under this article, other than arbitration.

(c) The costs of the alternative dispute resolution shall be borne by the parties.

(1) Alternative dispute resolution has been completed in compliance with this article.

(2) One of the other parties to the dispute did not accept the terms offered for alternative dispute resolution.

(3) Preliminary or temporary injunctive relief is necessary.

(b) Failure to file a certificate pursuant to subdivision (a) is grounds for a demurrer or a motion to strike unless the

court finds that dismissal of the action for failure to comply with this article would result in substantial prejudice to one of the parties.

5955. (a) After an enforcement action is commenced, on written stipulation of the parties, the matter may be referred to alternative dispute resolution. The referred action is stayed. During the stay, the action is not subject to the rules implementing subdivision (c) of Section 68603 of the Government Code.
