

ATTENTION McGWIRE ROAD RESIDENTS ASPHALT WORK IS TENTATIVELY SCHEDULED

JUNE 28

JUNE 25: SEALCOAT

DATE IS WEATHER PERMITTING AND SUBJECT TO CHANGE

VEHICLES MUST BE REMOVED FROM STREET PARKING SPOTS FROM 7:00 A.M. to 5:00 P.M. NO STREET OR PARKING LOT ACCESS IS AVAILABLE DURING THIS TIME.

5 THINGS YOU SHOULD KNOW AND PREPARE FOR:

1) **TEMPORARY INCONVENIENCE**

Although this work may cause some brief inconveniences, it is necessary for preserving and extending the life of the parking and drive areas in your neighborhood. Two days, approximately two months apart, to replace asphalt that will last for years.

2) **KEEP THE STREETS CLEAR**

All vehicles must be removed from the streets and parking lots by 7:00 a.m. There will be no vehicle or street access from 7:00 a.m. to 5:00 p.m. **Vehicles not removed by 7:00 a.m. will be subject to towing at the owner's expense.**

3) **WHAT TO EXPECT**

Premier Paving work crews with machinery and dump trucks will be in and out of the community for most of the day. On **Friday, June 28**, they will apply a seal coat.

If you park your car in your garage or driveway, it cannot be moved between 7:00 a.m. and 5:00 p.m. when the work is in progress.

4) **PREPARE: YOUR PART**

Since there won't be street access on either of the scheduled days, please consider notifying any guests, contractors, gardeners, babysitters, house cleaners, and others who may be planning a visit on the dates noted above and consider rescheduling, if necessary, due to restricted vehicle access. These street closures will impact deliveries as well.

5) **RESPECT THE BARRIERS & USE OF CAUTION**

Please do not drive into or on any areas with the street closure barricades. Barricades are an indication that work is being done. Driving or walking on fresh asphalt can significantly damage the street and cause the black tar-like substance to adhere to your car tires or shoes and track onto driveways, sidewalks, inside homes, etc. We recommend you keep roaming pets inside and that young children be monitored outside. LARMAC and Premier Paving will not be held responsible for any damage caused by carelessness or not adhering to these guidelines.

Residents responsible for damage during the process will be liable for all repair costs. This includes damage caused by turning wheels sharply on the fresh asphalt.

Keeping Neighbors Informed and Connected

Would you like to help keep neighbors informed about projects like this? Consider serving as your Neighborhood Representative. If you'd like to learn more, email Jennifer.Taylor@fsresidential.com.
