**Exterior Color Checklist**

Please refer to the Ladera Ranch Aesthetic Standards –Exterior Painting (Section V. B. - Exterior Painting) for design guidelines for repainting your home.

Please select an approved color scheme from the Master Color Palette that is appropriate for the architectural style of your house. The Master Color Palette includes a color schedule which contains 125 color schemes. The Master Color Palette is available online or in person at the Avendale Village Clubhouse office.

All applications must include the LARMAC application form and a completed Neighbor Awareness Form, an all other items required for architectural submittals as articulated within the Aesthetic Standards.

Please provide the following additional information along with your exterior color change application:

1. ARCHITECTURAL STYLE OF HOUSE

\_\_\_\_\_

2. PROPOSED COLOR SCHEME \_\_\_\_\_

3. Provide color photos of all sides of your house. Indicate where each paint color from the proposed scheme is to be applied to demonstrate that the colors will be consistent with the original builder application/paint location.
4. Provide color photos of the houses that are adjacent to your house and directly across the street.

Note: Paint colors may appear differently in various light sources and may look different when looking at a small color chip in the paint store or Clubhouse office than they look in natural sunlight on the face of your house. Additionally, colors viewed online or from a digital file differ significantly on different monitors and devices. We do not recommend that homeowners select colors from digital sources and that they view actual color samples or chips. We encourage homeowners to purchase a sample container of paint and test a small area before painting the entire house to make sure that the finished result is what is desired.
