

# Notice:

Aguilar Plant Care will be treating the following at Ladera Ranch community:

- Approximately 300 Citrus trees throughout the community.

Treatments will consist of the following:

- Foliar spray application to all the foliage using OMRI / Organic products.
- Deep root injection / drench to the immediate root zone with a nutrient mixture.
- Installation of 9 ISCA Leafminer traps to help aid in controlling adult Leafminers.

**Treatments will be made Thursday, December 12th  
Between 5:00am-12:00 pm.**

The following Organic products will be used:

PyGanic (Valent), Conserve (spinosad) (DowAgrosciences), and fertilizers

**During treatment window please:**

- **Keep away from treated areas until dry. (1-2 hours)**
- **Keep vehicles out of the adjacent areas.**

If you have any questions please contact your community management.
